#### Click install

iCMS icon

## II. Add device

Click the icon of iCMS on the desktop to enter into the operating interface. Show as following photo:

There are 4 icons shown as above: **Setting, Browse, Password, About. 1. Setting:** Click the **Setting** button to enter into the setting interface

The interface has total 5 settings:

- a. Add a device
- b. Edit device
- c. Delete device
- d. Input phone number
- e. Modify zone's name

a. Add device: add the information for the alarm system to the Android application Firstly, please click "add device" to enter into following interface.

18:06 $\bigcirc$ $\widehat{\mathbb{R}}$	11:09	اا 🤅 🖸 ⊘ 🤇
	Username:	
	Telephone:	
Add Device	Password:	
Edit Device	Confirm:	
Delete Device	Address:	
Setup Telephone	DelayArm:	
Change Zone Name	Save	Cancel

Input the information for the alarm system which is needed. *Notes:* 

The password should be the password for the alarm host The phone number should the alarm host's SIM card number The address should be the installation address for the alarm host Delay time is a reserve function, default value should be 30

Show as below photo:

11:12	■ III. 🤶 🖸 🛇 📿			
Username:	Bill			
Telephone:	13418941749			
Password:	1234			
Confirm:	1234			
Address:	Shenzhen,CHINA			
DelayArm:	30			
Sav	e Cancel			

After finishing input, please click save to finish adding a device.

11:13		♀ ♡ ♡ ? □		
Username:	Bill

Sav	e	Cance	el
1 Bill		13	418941749

After modifying the information, please click "exit" back to setting interface.

#### c. Delete Device

Click "Delete Device"

11:20 C ≧ □ O Ø ♀II □   Username: Bill   Telephone: 13418941749   Address: Shenzhen,CHINA			
Delete	Cancel		
1 Bill	13418941749		

Select the device that you want to delete and then click "delete" to delete it from the Application.

# d. Setting Alarm phone number

Click "Setup phone"

After entering into configuration interface, please select the user's name that you want to configure. For example, we select the user called Bill, as following.

11:22	¢¥⊐⊘	🗇 🛱 🤶 🛱 🗘			
Username:Bill					
SMS Number1:					
SMS Number2:					
SMS Number3:					
Calling Number1	:				
Calling Number2:					
Calling Number3:					
Save	Send	Cancel			
1 Bill		13418941749			

There are totally 6 alarm numbers can be setup, 3 cell phone numbers for receiving alarm message, and 3 phone numbers for receiving alarm calling.

Username:Bill
SMS Number1: 13418941749
SMS Number2: 13418941772
SMS Number3: 13418940976
Calling Number1: 13418941749
Calling Number2: 13418941772
Calling Number3: 13418940976
Save The save success. Cancel
1 Bill 13418941749

After finishing input, click "send". After setting successfully, the alarm host will send out a confirmation message to the first message alarm cell phone number.

Such as above image, the alarm host will send a setting information to the cell phone number 13418941749.

#### e. Modify zone's name

Click "Modify zone name" to enter into modify zone's interface. Firstly, please select the user's name.

11:25		♡凇ֿ⊡⊘ぬ淌""	
Username: Bill			
1:	S	10:	s
2:	S	11:	S
3:	S	12:	S
4:	S	13:	s
5:	S	14:	s
6:	S	15:	s
7:	S	16:	s
8:	s	17:	s
9:	s	18:	S
Save		Cancel	
1 Bill		1341894	1749

The series number 1 to 18 are for zone 1 to zone 18. The series number should be corresponded to zone number.

For example, If modify the name for the zone 1, so please input new zone's name to the box of zone 1 and then click right side "S".

After finishing modifying the zone's names, please click "Save".

#### Finishing Setting

Back to the menu, you can see the device which we added just now. Click the user's name, entering into control interface.

Remotely control the alarm host to get into arm mode, click "Arm" button

After operation successfully, you will receive a tip "SMS sent successfully"

## III Check the operation record

Click "browse", you will see the operation record as right photo.
